

Town of Bradley
Board Meeting
March 14, 2005 5:30 P.M.

Chairman Jack Huston called the meeting to order. Present were Supervisors Elsie Bartz, Bill Jelinek and Kevin Koth.

The vouchers had been signed.

David Nycz, John Marcks and Scott Swenty spoke concerning the Eurasian Water-Milfoil problem in their area of Lake Nokomis. The DNR has Rapid Response Grants available on a 50-50 cost share basis. They stated that there is approximately 80 acres affected in Lake Nokomis and the cost of treatment is \$400 to \$500 per acre. They asked for financial support from the town.

Bartz suggested that they check with other Lake Associations to see if they would be willing to help with financial support. She noted that due to two large tax errors the budget will be very tight this year.

Huston stated that the town does not have any money in this year's budget to help them. He asked that they keep the board aware of the situation.

Plan Commission Chair Diana Smith reported that the next Plan Commission meeting will be March 28th. Review of the subdivision ordinance and options for Town adoption of the new zoning code will be looked at. Also, the Zoning Department and the UW Extension is slated to host a forum for towns in late April of this year to discuss the new code. Town land division or subdivision ordinances will be discussed.

She also noted that the Carter Smith bridge application had been approved with conditions by the DNR.

M/M to adjourn. Koth/Jelinek 4-0.

Ann Eckman, Clerk
